

ALCOHOL AND OTHER DRUGS

I. PROGRAM OVERVIEW

Though significant progress has been made in reducing the frequency of driving under the influence (DUI) and related injuries and fatalities, alcohol remains the number one Primary Collision Factor (PCF) in fatal crashes. Alcohol-involved fatalities increased in 2003 for the fifth straight year, overturning the downward trend of previous years. In 2003, Statewide Integrated Traffic Records System (SWITRS) provisional data shows 32,728 people were killed or injured in alcohol-involved crashes reflecting a 2.3 percent decrease from 2002. This is the first decrease in killed or injured alcohol-involved crashes since the low of 32,057 in 1998.

DUI continues to be one of society's major problems. The National Highway Traffic Safety Administration (NHTSA) estimates that two in five Americans will be affected by alcohol related collisions during their lifetime. OTS addresses this problem by funding DUI enforcement, public education, adjudication, prevention programs, training, and licensing systems. In addition, OTS develops and implements successful alcohol education and awareness programs aimed at reducing problems associated with underage high school and college drinking.

Alcohol is the drug most commonly used by youth and is one of the most common contributors to youth injuries, deaths, and criminal behaviors. The youth population continues to grow, and the use of alcohol continues to increase among high school students. Drivers aged 15 through 19 who make up 4.1 percent of the driving population constituted 7.3 percent of Had Been Drinking (HBD) drivers in fatal and injury collisions during 2003.

In 2003, the 20-34 year old age group represented 29.3 percent of all licensed drivers. This group is over-represented in HBD driver crashes, making up 44.6 percent of all HBD drivers in fatal and injury crashes. A comparison from 2002 data shows the number of 20-34 year olds involved in HBD fatal and injury collisions decreased 3.2 percentage points during 2003. This is the first decrease in the 20-34 age group for HBD driver crashes in five years.

NHTSA estimates that as many as 2,000 alcohol-impaired driving trips occur for every DUI arrest and that even during special drinking-driving enforcement programs, as many as 300 trips occur for each DUI arrest. Many potential offenders are deterred from drinking and driving only if there is a public perception that they will be caught and punished. Research shows that increased public attention and news coverage of DUI enforcement efforts can help reduce alcohol-related crashes.

Repeat DUI offenders continue to present a hazard to traffic safety. Drivers who have been convicted of DUI are more likely than others to be arrested subsequently for DUI and to be involved in alcohol-related crashes (NHTSA and National Institute of Alcohol Abuse and Alcoholism, NIAAA 1996). In the United States, one of every six (16.6 percent) drivers killed in a crash who had a positive blood alcohol content (BAC) had been convicted of DUI within three years before the crash (NHTSA 1997).

A 1996 NHTSA study of repeat offenders showed that when police presence was certain, there was a corresponding decrease in DUI behavior among study participants. Additionally, the threat of arrest and/or the consequences of arrest caused 61 percent of the repeat offenders studied to stop their behavior for some period of time.

II. ACTION PLANS

OTS realizes that no one approach is effective for every community. Grantees are encouraged to develop programs that address specific needs for their city, and programs that include multiple components are encouraged.

Through OTS funding in fiscal year 2005, the California Highway Patrol (CHP) will continue to provide mini grants to local agencies to conduct the "Every 15 Minutes" program. The "Every 15 Minutes" program is a two-day program that focuses on high school juniors and seniors and challenges them to think about the consequences of drinking, personal safety and the responsibility of making mature decisions when lives are involved. The program name was derived from the unfortunate fact during the early 1980s that Every 15 Minutes someone in the United States was killed in an alcohol-related traffic collision.

In an aggressive effort to reach the 21 to 34 year old age group, California has launched multiple projects implementing education, prevention, and alcohol access enforcement efforts. These efforts are strategically placed on college campuses and within the surrounding communities. Multiple agencies are participating to provide a comprehensive approach to reducing increasing alcohol related traffic crashes among this group.

With the help of OTS funding, California has been leading the nation in pioneering Portable Evidential Breath Testing (PEBT) device technology that expedites evidence collection and promotes accuracy and efficiency for adjudication. The device California has been using includes a peripheral magnetic strip reader for instant electronic collection of subject and officer information. In addition, this device electronically stores all test results and subject information for transfer to a central database or directly to the California Department of Justice. One of the major advantages of using this device is that it decreases the time required for officers to transport and process DUI arrestees and increases the amount of time they spend patrolling and making additional DUI arrests.

OTS continues to promote the "Avoid" program concept in fiscal year 2005. These programs provide increased DUI enforcement by bringing together agencies from different jurisdictions to target a region with highly visible DUI enforcement and sobriety checkpoints and an intense media campaign. Targeted enforcement is conducted when DUI incidents are typically at their highest during the winter holiday period (Christmas and New Years), July 4th and Labor Day weekends. Daily news releases inform the public of enforcement efforts and arrests made. In fiscal year 2005, 28 of these projects will be active.

OTS appreciates that state-of-the-art technologies allow for progressive advancements in preventing alcohol-involved collisions. OTS is funding a project through the Riverside County Probation Department that involves using Global Positioning System (GPS) microchips and Radio Frequency Identification (RFID) microchips in bracelets to allow probation officers to monitor the whereabouts of chronic DUI repeat offenders who are on probation. The project takes advantage of the years of OTS funding of Geographical Information Systems (GIS) to allow the probation officers to pin-map electronically when a probationer violates terms of probation based on GPS and RFID information that an offender has been on the premises of an ABC licensee's premises.

To achieve the greatest potential for reducing fatalities and injuries, OTS recommends grantees consider the following countermeasures when preparing their project agreements (*Note: The OTS “Blueprint” contain additional recommended “best practice” countermeasures*):

- To conduct frequent, highly visible and publicized sobriety checkpoints and selective enforcement operations.
- To conduct “Every 15 Minutes” and “Reality Check” youth DUI programs.
- To air paid/free public service announcements depicting home videos of victims killed by drunk drivers to be aired during “prime time”.
- To provide funds for active and Preliminary Alcohol Screening (PAS) devices, DUI trailers, and other DUI enforcement equipment.
- To provide funds for Portable Evidential Breath Testing (PEBT) devices, and Evidential Portable Alcohol System (EPAS) devices.
- To conduct “stakeouts” of habitual DUI offenders who continue to drive with suspended or revoked licenses.
- To develop local “hotlines” to report DUI offenders who continue to drive with suspended or revoked licenses.
- To establish DUI warrant service programs targeting habitual DUI offenders who fail to appear in court.
- To increase DUI conviction rates by surveying counties with disproportionately low DUI conviction rates to determine corrective action needed to improve conviction rates.
- To reduce the time and effort required to process DUI arrests by replacing paperwork with electronic automation.
- To conduct youth “Visitation Programs” for DUI offenders, coordinating sessions with courts, trauma centers, and law enforcement agencies.
- To promote comprehensive community alcohol programs that includes enforcement, public education, community organization, and judicial liaison and training.
- To promote comprehensive programs directed at young drivers concerning alcohol and other drugs.
- To implement alcohol screening and brief intervention programs at trauma centers addressing trauma patients with positive blood alcohol levels.
- To provide administrative support and coordination to an overall DUI program through means such as local coalitions, the Traffic Alliance for a Safer California (TASC), etc.
- To provide training for judicial officials to improve the adjudication process involving DUI convictions, to promote assurance that restitution fines and orders are requested by district attorneys and probation officers and then imposed by judges and commissioners, and to enhance judiciary personnel knowledge of DUI laws and issues.

- To implement college-environment educational prevention and media strategies targeting high-risk college students on various college campuses.
- To promote high school, junior high and elementary youth DUI prevention programs at various schools statewide.
- To conduct real DUI trials for local high school students.
- To conduct “sales to minors” enforcement operations.
- To provide funds for Global Positioning Systems (GPS) and Radio Frequency Identification systems (RFID) for probation departments to monitor chronic DUI repeat offenders on probation.
- To expand statewide creation of the multi-agency Avoid Campaigns during high-risk holiday periods.

III. TASKS

TASK 1 - PROGRAM DEVELOPMENT AND ADMINISTRATIVE COORDINATION

This task provides for the necessary staff time and expenses incurred by OTS that are directly related to the planning, development, coordination, monitoring, auditing, and evaluation of projects within this program area, and the preparation of the 2005 Highway Safety Plan. Funding is also provided in this task for the printing of brochures and pamphlets, distributing literature and media materials developed through successful projects, or obtained from other sources. Assistance is also provided under this task to individuals to attend and participate in technology transfer workshops, training sessions, or educational meetings or conferences.

TASK 2 - DUI ENFORCEMENT/EDUCATION/PUBLIC INFORMATION

This task provides for comprehensive drunk driving enforcement programs implemented through enforcement agencies. The programs under this task are comprised of multiple components including increased enforcement to focus on sobriety checkpoints, the purchase of specialized equipment, and the implementation of enhanced alcohol public information and education programs. The table below details the programs under this task for fiscal year 2005.

TASK 3 - PREVENTION/INTERVENTION TRAINING AND PUBLIC INFORMATION

This task provides for the continued focus on traffic safety training for public agency personnel, private businesses, and public education/awareness programs.

157/164AL

AL0381 - UNIVERSITY OF CALIFORNIA, BERKELEY LATINO TRAFFIC SAFETY PROJECT

In order to reduce traffic injuries and fatalities and to raise awareness of traffic safety in the Latino community in California, the Latino Traffic Safety Project will aim to gather quantitative and qualitative data from and about the Latino community. Community forums will be held in order to gather qualitative and culturally appropriate data directly from the Latino community. Data gathered will be discussed at a statewide working group of stakeholders in California. The working group will review relevant research and programs in order to develop a set of best practices for traffic safety interventions that would take social, cultural, and socioeconomic differences into account. Finally, the results of the data gathering, the forums and statewide meetings will be summarized into a set of recommendations and final report to be distributed to policy makers, planners and traffic safety professionals statewide. (\$32,554 for local benefit)

163

AL0472 - UNIVERSITY OF CALIFORNIA, BERKELEY TRAFFIC SAFETY CENTER/LATINO OUTREACH PROJECT

The Traffic Safety Center/Latino Outreach Project intends to reduce traffic fatalities and injuries by the means of expanding capacity and knowledge of key traffic safety components: I) students and researchers in engineering, planning, public health, and other pertinent fields, II) state and local agencies conducting efforts, III) the public, through education, technical assistance, outreach, and applied research. In addition, the Traffic Safety Center will contract with a Latino policy and research organization to conduct focus groups to validate the recommendations from AL0381; conduct a comprehensive outreach effort through a series of open houses and the media to raise awareness; provide educational materials; and explore ways of applying this model to other communities of color. (\$374,640)

164AL

AL0392 - CALIFORNIA HIGHWAY PATROL DRIVING UNDER THE INFLUENCE CORRIDOR PROJECT

The Driving Under the Influence Corridor Project focuses on reducing fatal and injury traffic collisions attributed to driving under the influence. The goal is to reduce DUI-related fatal and injury collisions within CHP jurisdiction on roadways with a high incidence of DUI-related collisions. Project activities, implemented from April 2003 through December 2005, include both a public awareness campaign and enhanced enforcement directed at reducing a percent (to be quantified upon site selection) of DUI-related fatal and injury collisions on four corridors to be selected during the project's preparation. A local task force will convene for each corridor to coordinate and implement an aggressive approach to anti-DUI enforcement activities (e.g., DUI-task force operations, roving DUI patrol, and DUI checkpoints). The task force will also implement an anti-DUI public education and awareness campaign. Positive and/or negative results of the combined law

enforcement/public awareness campaign will be published in a Final Report for each phase of the project. An Anti-DUI Action Plan addressing the DUI issues for each corridor will also be included in the Final Report. (\$156,122.87 for local benefit)

AL0393 - CALIFORNIA HIGHWAY PATROL

STANDARDIZED FIELD SOBRIETY TESTING (SFST) INSTRUCTOR PROGRAM

The Standardized Field Sobriety Testing (SFST) Instructor Program aims to keep California highways free of alcohol and drug-impaired drivers by providing current NHTSA-approved SFST instructor training and materials to local law enforcement agencies, CHP offices, and Drug Recognition Expert (DRE) instructors throughout the state. Agencies receiving instructor training will commit to training their traffic officers in the use of SFST and report this back to OTS through the CHP. Officers trained in the use of SFST will be better equipped to recognize and remove impaired drivers from the roads. (\$8,859)

AL0394 - CALIFORNIA HIGHWAY PATROL

DON'T GET BEHIND THE WHEEL - DESIGNATE A SOBER DRIVER PROJECT

The Don't Get Behind the Wheel - Designate a Sober Driver Project will attempt to reduce the number of driving-under-the-influence (DUI) drivers at fault in fatal traffic collisions by revitalizing the CHP's Designated Driver Program is continued into fiscal year 2005. The Designated Driver Program logo will be updated and a new print and promotional materials will be developed and produced. Additionally, a Designated Driver Program management and training video will be produced, duplicated, and distributed. CHP Public Affairs Officers will promote the Designated Driver program by enlisting the participation of partner organizations that serve alcohol. (\$98,185.77)

AL0510 - CALIFORNIA HIGHWAY PATROL

DRUG RECOGNITION EVALUATOR (DRE) FIELD APPLICATION, II PROGRAM

The Drug Recognition Evaluator (DRE) Field Application, II will conduct a DRE field application and allied agency training project. The DRE program is aimed at keeping California highways free of drug-impaired drivers. This field application project intends to increase statewide participation in the DRE program and to encourage the use of the DRE program in enforcement operations. Project resources will be used to train allied agency and CHP personnel. (\$124,607)

AL0577 - SAN RAFAEL POLICE DEPARTMENT

COMPREHENSIVE AVOID PROGRAM OUTREACH COORDINATION PLAN PROJECT

The Comprehensive AVOID Program Outreach Coordination Plan project seeks to develop a webpage and warehouse that will allow all agencies to utilize existing AVOID materials. Items such as brochures, posters, checkpoint flyers, radio and television PSA's will be available to new and or existing AVOID programs. These materials will also be available to other grantees throughout the state. These materials will be cataloged and made available through an interactive website. The website will also be created under this project. In addition to the materials catalog, the website will also gather and post AVOID event information, AVOID media releases and media coverage of events. AVOID data will also be gathered and displayed on the created site. The project will also organize and develop AVOID seminars in various locations throughout the state. (\$58,300.)

AL0590 - DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL

TRACE (TARGET RESPONSIBILITY FOR ALCOHOL-CONNECTED EMERGENCIES)

TRACE is a protocol wherein first responders to alcohol-involved emergencies immediately notify the Department of Alcoholic Beverage Control (ABC) when it is apparent that an ABC licensed premise may have sold or furnished alcohol to the underage person(s) involved. This project will create a training kit, including a short video, for local law enforcement and ABC on the TRACE

protocol. The project funds overtime for ABC investigators to conduct TRACE investigations, and purchase equipment and information materials. Partnerships with youth organizations such as Youth Leadership Institute and Friday Night Live will be established to further project goals and disseminate information about TRACE to communities, including ABC licensees. (\$472,869)

402

**AL0410 - CALIFORNIA DEPARTMENT OF TRANSPORTATION
NATIVE AMERICAN RESERVATION PUBLIC INFORMATION AND EDUCATION CAMPAIGN**

The Native American Reservation Public Information and Education Campaign project provides funding for personnel, travel expenses, and mini-grants to community-based organizations. The main goal of the project is to educate residents of Native American Reservations on traffic safety. Project activities include awarding mini-grants for traffic safety educational projects and conducting a public information campaign. (\$75,000)

410

**AL0411 - CALIFORNIA DEPARTMENT OF TRANSPORTATION
DUI TRAFFIC SAFETY EDUCATION AT REST STOPS**

The DUI Traffic Safety Education at Rest Stops project provides funding for personnel, travel expenses, and contractual services. The main goal of the project is to develop a theme and build a public education campaign educating drivers regarding the dangers of driving under the influence. Activities include implementing the campaign at all rest stops along state highways. (\$68,350)

**AL0424 - DEPARTMENT OF ALCOHOL AND DRUG PROGRAMS
PREVENTION OF IMPAIRED DRIVING AMONG ASIAN AMERICAN AND PACIFIC ISLANDERS IN CALIFORNIA**

The Prevention of Impaired Driving Among Asian American and Pacific Islanders in California project provides funds for personnel, travel, contractual services, and printed materials. The project will reduce impaired driving through a pilot project that develops and implements a social marketing and community mobilizing campaign targeting Asian American and Pacific Islanders within two California communities. (\$125,722 for local benefit)

TASK 4 - COLLEGE AND YOUNGER AGE YOUTH PROGRAMS

This task provides for alcohol education and awareness programs, which focus on ages from middle school through college. DUI prevention programs for high schools and university campuses will also expand elements from previous successful programs. The expanded programs will include components addressing use of seat belts, bicycle and pedestrian safety elements.

AL0228 - SUPERIOR COURT OF CALIFORNIA, SACRAMENTO COUNTY**SACRAMENTO COUNTY YOUTHFUL VISITATION/STUDENTS OFFERING SOLUTIONS PROGRAM**

The Sacramento County Youthful Visitation/Students Offering Solutions Program provides funds in contractual services for personnel, travel, equipment, and program operational and education materials. Project activities include coordinating visitations with trauma centers and the Coroner's Office Victim Impact Panel for DUI offenders, and publishing an evaluation of the visitation program. Other activities include a public information campaign targeting youth through a create-a-PSA contest, which is a collaborative effort between the grantee, MADD, and a local television station. The project goals are to reduce recidivism, increase awareness among young people of the consequences of drinking alcohol and using drugs and the effect it has on their ability to drive safely. (\$139,950 for local benefit)

157/164AL**AL0374 - SANTA ANA POLICE DEPARTMENT****MOBILE DUI EDUCATION AND DRIVING SIMULATION CLASSROOM**

The city of Santa Ana will deploy a Mobile DUI Education and Driving Simulation Classroom constructed from a custom designed 5th wheel trailer pulled by a one-ton pick-up truck. The trailer will be taken to Santa Ana high schools, colleges, and other venues with the goal of providing the educational program to students aged 15-22. The Mobile Classroom will showcase an externally projected wide-screen presentation of a professionally produced theatrical video, and feature contemporary music and content most likely to appeal to younger drivers. The objective of this project to draw a correlation between the decision to drive while intoxicated and the unanticipated outcomes, which maybe arrest, or collision resulting in injury and death. Students will complete an attitude survey prior to watching the video, and another following the entire presentation. Following the movie, students enter the Mobile Classroom where they will drive personal computer-based driving simulators with modified software capable of emulating the physical effects for varying levels of intoxication. (\$17,280)

AL0407 - BUTTE COUNTY DEPARTMENT OF BEHAVIORAL HEALTH**PROJECT DOWNSHIFT PROGRAM**

The Project Downshift program provides funding for personnel, contractual services, promotional items, and computer equipment. This project forms a community team that includes parents, students, teachers, and traffic safety advocates addressing underage drinking and driving. Project activities include traffic safety presentations to high school students, development and distribution of a "16th Birthday" Safe Driving Kit, and a media campaign targeting 16-year-old drivers. (\$87,250)

AL0434 - LOS ANGELES COUNTY**WHEEL SMARTS PROGRAM**

The Wheel Smarts Program provides funds for personnel and contractual services. This program implements the "Wheel Smart" project in 30 middle and high schools with high-risk teens in Los Angeles to improve DUI awareness among teens in Los Angeles County. The Wheel Smart project employs the development and presentation of a play with teens acting, directing, and producing the show with the assistance of professional actors as mentors and teachers. (\$202,223)

AL0449 - SAN DIEGO POLICE DEPARTMENT**DUI P.A.C.E. (PREVENTION THROUGH AWARENESS AND COOPERATIVE EDUCATION) CAR PROJECT**

The DUI P.A.C.E. Car project provides funding for personnel, travel expenses, educational/promotional materials, and contractual services. The overall goal of the project is to decrease the number of persons between the ages of 16-30 injured and killed in alcohol-involved collisions in San Diego County. Activities include educational presentations to students, conducting high school seat belt challenges, and organizing student journalism or theater productions addressing DUI and other traffic safety issues. (\$122,079)

AL0455 - SANTA CLARA COUNTY PUBLIC HEALTH DEPARTMENT**COMPREHENSIVE DUI CRASH PREVENTION PROJECT**

The Comprehensive DUI Crash Prevention project provides funding for personnel, travel expenses, and educational/promotional materials. The overall goal of the project is to decrease the number of persons injured and killed in alcohol-involved collisions. Activities include convening and conducting actual DUI trials on high school campuses in Santa Clara County, promoting proper seatbelt use, and producing a public information campaign. (\$119,339)

AL0501 - ALAMEDA COUNTY PUBLIC HEALTH DEPARTMENT**YOUTH ALCOHOL PREVENTION THROUGH ENVIRONMENTAL CHANGE PROGRAM**

The Youth Alcohol Prevention Through Environmental Change program integrates youth development and community prevention strategies to reduce "has been drinking" drivers under 21 through prevention of underage drinking and driving under the influence (DUI) using a population-based prevention strategy. Eight youth will be hired to conduct a local youth alcohol survey in Oakland, report the results of the survey to the media, legislators, professionals and community, develop strategies and educational materials to reduce underage drinking and educate youth and adults using these materials. The youth will be trained in responsible beverage service and work with Alcoholic Beverage Control to develop materials for distribution to liquor licensees on underage drinking. A review of underage drinking legislation and policies will be completed to determine the need for policy reform and as appropriate educate key individuals to support and/or make needed reforms. (\$65,034)

AL0509 - CALABASAS**TEEN TRAFFIC OFFENDER PROGRAM**

The city of Calabasas will conduct a traffic safety project to further implement the Calabasas Teen Traffic Offender (STTOP) program and add to its success for years to come. This project will expand the STTOP program through a hands-on, visual, results oriented campaign. This educational/enforcement approach is designed for high school students in the area coupled with overtime for the Los Angeles County Sheriff for selective enforcement. (\$40,000)

AL0545 - IMPERIAL COUNTY**PROJECT STOPS (STUDENTS TAKING OPPORTUNITIES TO PROMOTE SAFETY)**

This comprehensive program Project STOPS (Students Taking Opportunities to Promote Safety) will work to reduce student drinking and driving and increase seatbelt compliance using two strategies: youth development and education. The project will establish and support Friday Night Live, Club Live, and Kids Live Clubs in seven districts; conduct "Every 15 Minutes" Seatbelt Challenge and Reality Check programs; conduct student seminars, a DUI/drug poster contests; and produce student developed public service announcements. (\$140,294)

AL0575 - SAN LUIS OBISPO COUNTY**COMPREHENSIVE DUI PROGRAM**

San Luis Obispo County Public Health Department through an innovative, multi-faceted traffic safety approach, will increase the awareness of impaired driving and the necessity of appropriate restraint use through the Comprehensive DUI Program. Through a collaborative effort of a number of agencies and community-based organizations, an educational campaign with media components will target teenagers, college-aged students, and farm workers. Activities include high school seat belt challenges, DUI education at high schools and farming communities, and proper car seat/restraint use for parenting teens and young families. (\$160,000)

164AL**AL0122 - CALIFORNIA HIGHWAY PATROL****TEEN CHOICES PROGRAM**

The Teen Choices program provides funds for personnel (uniformed and civilian), travel, contractual services, mini grants, LCD projectors, promotional and printed materials, computers, digital cameras, and a scanner. Project activities will include the promotion and presentation of the "Every 15 Minutes" and "Sober Graduation" programs for private and public schools, and community based organizations throughout the state. The goal of the program is to reduce collisions involving teenagers who had been drinking. (\$120,735.08)

AL0308 - CALIFORNIA STATE UNIVERSITY, FRESNO**CSU SOBER DRIVER INITIATIVE PROJECT**

The CSU Sober Driver Initiative project provides funds for personnel, peer educators, training, contractual services, evaluation, printed materials, and office supplies. Social norms and peer education strategies will be applied on selected CSU campuses to reduce the incidence of alcohol abuse and alcohol impaired driving. Collaborating with alcohol enforcement programs and with "feeder" high schools will strengthen campus-community linkages and enhance the on-campus efforts to address these problems. (\$40,948 for local benefit)

AL0313 - DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL**CSU PARTNERSHIP PROJECT**

The CSU Partnership project provides funds for personnel, travel, and contractual services. The project will develop a partnership with the California State University to implement a community approach to reducing underage drinking in eight college communities. Project activities will include LEAD training to alcohol outlets, on campus peer education programs, followed by targeted enforcement of sales to minors, and alcohol decoy operations. The goals are to reduce alcohol sales to minors, build campus-community coalitions, and increase enforcement of underage drinking laws and policies. (\$0)

AL0358 - DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL**GRANT ASSISTANCE PROGRAM (GAP) EXPANSION PROJECT**

The Grant Assistance Program (GAP) Expansion project will increase enforcement of underage drinking laws and policies and reduce access to alcohol by under age youth. Mini-grants are provided to local law enforcement agencies that identify alcohol related problems. ABC personnel will work with the agencies to implement proven enforcement strategies. (\$46,500 for local benefit)

AL0390 - UNIVERSITY OF CALIFORNIA**UNIVERSITY OF CALIFORNIA TRAFFIC SAFETY INITIATIVE PROJECT**

The University of California Traffic Safety Initiative project provides funds for personnel, peer educators, training, contractual services, evaluation, printed materials, and office supplies. Social norms and peer education strategies will be applied on selected CSU campuses to reduce the incidence of alcohol abuse and alcohol impaired driving. Collaborating with alcohol enforcement programs and with “feeder “ high schools will strengthen campus-community linkages and enhance the on-campus efforts to address these problems. (\$109,908 for local benefit)

AL0391 - DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL**UC PARTNERSHIP PROJECT**

The UC Partnership project provides funds for personnel, travel, and contractual services. The project will develop a partnership with the University of California to implement a community approach to reducing underage drinking in college communities. Project activities will include LEAD training to alcohol outlets, on campus peer education programs, followed by targeted enforcement of sales to minors, and alcohol decoy operations. The goals are to reduce alcohol sales to minors, build campus-community coalitions, and increase enforcement of underage drinking laws and policies. (\$93,056 for local benefit)

AL0420 - CONTRA COSTA HEALTH SERVICES**TEEN TRAFFIC EDUCATION AND ENFORCEMENT PROJECT**

The Teen Traffic Education and Enforcement project funds provide personnel, travel, printing, incentives, educational materials and office supplies for anti-DUI teen education and DUI enforcement. This project reduces key risk factors for DUI collisions causing injury and death to Richmond 16-21 year olds. The project utilizes both DUI enforcement and educational strategies and will be conducted by the Contra Costa Health Services and the Richmond Police Department. (\$80,949)

AL0451 - SAN DIEGO STATE UNIVERSITY**PAY THE PRICE PROJECT**

The Pay the Price project provides funding for contractual services. Project activities include creating and distributing a “Pay the Price” video and facilitation guide/community action kit, training and involving youth as leaders and spokespersons in prevention efforts aimed at reducing underage drinking and underage drinking and driving, and creating and implementing youth-developed counter-marketing DUI campaigns. (\$184,696)

AL0474 – JUDICIAL COUNCIL OF CALIFORNIA, ADMINISTRATIVE OFFICE OF THE COURTS**YOUNG ADULT COLLABORATIVE JUSTICE DUI DRUG COURT PROJECT**

A Young Adult Collaborative Justice DUI Drug Court Project for young adults 18-24 years of age will be developed, suitable for implementation and replication by local California courts. The program will identify models for court intervention with at-risk youth for multiple DUI offenders, and methods for identifying at-risk youth through the participation and planning of experts from judiciary, juvenile justice, substance abuse treatment, and law enforcement. Mini-grants will be awarded to local courts for planning, implementation, and evaluation of juvenile DUI drug courts, and peer/youth DUI and traffic safety programs. The program will educate at-risk juveniles about the dangers of drinking, driving, DUI, and traffic safety concerns through participation in juvenile DUI drug court and peer youth court programs. In addition, education will be provided to bench officers, court personnel, and the public about multiple DUI and juvenile DUI drug court models through one-day DUI drug court training seminars, a DUI drug court bench guide, and a companion training video/broadcast. (\$360, 978)

AL0477 - CALIFORNIA HIGHWAY PATROL**COLLEGE DUI CORRIDOR PROJECT**

California Highway Patrols College DUI Corridor Project will work with university/college staff and allied agencies to develop an impaired driving prevention program at two selected campuses. The campus sites will be chosen based on DUI collision statistics for CHP enforced roadways surrounding the college campuses. This program will include enforcement activities on the roadways near the campuses and extensive public education and awareness campaigns centered around student activities both on- and off-campus. Campus officials, students, and local community members will be invited to participate in local task forces to develop recommendations on how best to curb dangerous behaviors in their communities. (\$340,000 for local benefit)

AL0479 - CALIFORNIA HIGHWAY PATROL**SCHOOL-BASED ANTI-DUI MEDIA CAMPAIGN**

The School-Based Anti-DUI Media Campaign provides funds for personnel overtime, pre-campaign research, paid media, and education/promotional materials. Project activities throughout California include traffic safety presentations in schools and a non-traditional media campaign that focuses on students in grades six through ten, using school newspapers, teen magazines, and closed-circuit school television channels. The project goal is to increase these students' awareness of the dangers of driving while impaired by alcohol or drugs before they become eligible to be licensed drivers. (\$595,260)

AL0483 - DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL**STATEWIDE ABC DECOY TASK FORCE PROJECT**

The Statewide ABC Decoy Task Force project conducts Minor Decoy operations, targeting those jurisdictions that have a greater than average number of complaints against commercial outlets that sell alcohol to minors. Statewide, the current number of complaints on hand for violations involving minors is 618. Underage, unpaid decoy volunteers are recruited from a number of sources, including community groups, churches, family members and friends of officers and their families. Minor Decoy operations allow ABC to quickly respond to public complaints, reduce alcohol availability to minors, and increase perception of risk among licensees who are inclined to sell to minors. (\$849,616)

AL0534 - CALIFORNIA STATE UNIVERSITY, FRESNO**CSU ALCOHOL AND TRAFFIC SAFETY PROJECT**

California State University (CSU) campuses across the state have been working to meet the objectives outlined in the CSU Alcohol Policy, which was implemented by Chancellor Reed and the CSU Board of Trustees in 2001. Campuses are implementing strategies to reduce alcohol abuse, alcohol-related incidents, crashes, and fatalities; however, more needs to be done. The CSU Alcohol and Traffic Safety Project is intended to focus objectives contained within the policy, increase efforts in the area of traffic safety, enforcement partnerships, increase training efforts for beverage servers, and provide information and training to further environmental management strategies. Using lessons learned from the CSU Sober Driver Initiative, CSU Alcohol and Traffic Safety will expand - via mini-grants - initiatives created by campus Alcohol Advisory Councils that focus on areas of need related to DUI prevention. The project will also provide CSU campuses with on-going training, year-round consultation, and relevant information on alcohol and traffic safety. Utilizing primarily an environmental management approach, the project will unify CSU efforts statewide and provide a model for other universities across the state and the nation. (\$375,000)

**AL0414 - CALIFORNIA STATE UNIVERSITY, SAN BERNARDINO
EVALUATION OF YOUTH PREVENTION EDUCATION PROGRAMS**

The Evaluation of Youth Prevention Education Programs project provides funds for personnel, travel, educational materials and supplies. This program employs a professor and graduate students to research through surveys and other mechanisms that allow them to evaluate the effectiveness of OTS funded youth outreach programs. The project will present its findings to OTS and other audiences that have direct involvement with teenage populations at schools and colleges. (\$40,000)

**AL0427 - EMERGENCY MEDICAL SERVICES AUTHORITY
FIRST THERE, FIRST CARE AND DUI EDUCATION PROGRAM**

The current First There, First Care and DUI Education Program implements a program in rural California high schools training young drivers (juniors/seniors) to provide life-saving bystander care (basic first aid/airway management) at the scene of motor vehicle crashes. DUI education is included to heighten their awareness of the consequences of driving under the influence of alcohol or drugs and not using seatbelts. (\$110,262)

**AL0457 - SANTA MONICA
PROBLEM SOLVING SAFETY TEAM - PSST AND WESTSIDE LAW ENFORCEMENT AGAINST DRUNK
DRIVING - WE LEADD PROJECT**

The Problem Solving Safety Team – PSST and Westside Law Enforcement Against Drunk Driving - We LEADD project provides funds for personnel, trailer for educational purposes, driving simulators, sound system/media package, educational/promotional materials, PAS devices and supplies, training and printing. Through the implementation of a dual function traffic enforcement and traffic safety education program as part of a regional collaboration, the cities of Beverly Hills, Culver City, West Hollywood and Santa Monica have established the Westside Law Enforcement Against Drunk Driving (WE LEADD) Program with a mobile education program to be conducted at schools and community event throughout the Westside Cities. The latest video interactive technology supplemented with visual impairment and physical reaction deprivation equipment is used. At the local level, the Santa Monica Police Department is increasing its enforcement efforts by providing additional directed enforcement/education in the areas of pedestrian safety, seatbelt violations and helmet usage. Also, the Santa Monica Police Department is conducting training to Westside law enforcement agencies on the use of standard field sobriety tests. (\$123,868)

**AL0463 - SAN JOAQUIN COUNTY SUPERIOR COURT
COURTROOM TO SCHOOLROOM PROJECT**

The Courtroom to Schoolroom project provides funds for personnel, travel, media, educational materials and supplies. This program dramatically presents the consequences of poor choices by conducting real DUI court sentencing at school. The court proceedings are followed up with an interactive discussion between the judge and students. The project plans to conduct six DUI court-sentencing sessions and a countywide public awareness campaign. (\$76,462)

TASK 5 - JUDICIAL SUPPORT

This task provides for statewide training for prosecutors of DUI cases; statewide training of “courtroom presentation of evidence and blood alcohol driving impairment” for forensic laboratory and law enforcement court witnesses; and local training on DUI laws and sentencing alternatives for judicial officers.

157/164AL

AL0549 - LOS ANGELES SUPERIOR COURT

LOS ANGELES COUNTY JUDICIAL DUI CONFERENCE PROJECT

The Los Angeles County Judicial DUI Conference project will host a weekend educational DUI conference to approximately 125 Los Angeles Superior Court judicial officers to provide basic information and specialized training on alcoholism as it affects DUI offenses. Sessions will address the latest legal provisions and developments in the DUI laws, as well as, information on local alternatives in DUI sentencing and the effectiveness of various legal sanctions currently available. (\$104,000)

AL0596 - JUDICIAL COUNCIL OF CALIFORNIA

2005 ADJUDICATION WORKSHOP FOR TRAFFIC SAFETY PROJECT

The 2005 Adjudication Workshop for Traffic Safety Project will provide a three-day traffic/DUI adjudication workshop for fiscal year 2005. The purpose of the workshop is to promote traffic safety through a variety of methods. Members of the California judiciary will participate in seminar and classroom discussions. In addition, the workshop will provide hands-on use and observation of law enforcement technologies and procedures. The workshop will also provide opportunities for information and idea sharing between California traffic judges, commissioners and juvenile hearing officers. The project will also fund the planning committee to establish the goals and the development of the workshop agenda and faculty. Complete surveys will be collected to provide feedback on the 2005 workshop and to aid in the development of future adjudication workshops. (\$99,974)

164AL

AL0583 - TULARE COUNTY DISTRICT ATTORNEY'S OFFICE

DRIVING IMPAIRED PROSECUTION PROGRAM (DIPP'S)

The Tulare County District Attorney's Office will establish the Driving Impaired Prosecution Program (DIPP's) that will work with the eight incorporated police departments in the county, the Tulare County Sheriff's Office and the CHP to reduce the number of DUI's resulting in death and/or serious injury by dedicating a specialized District Attorney Investigator and Prosecutor to investigate and vertically prosecute all DUI cases involving a fatality or serious injury. (\$175,491)

410

AL0454 - SAN JOAQUIN COUNTY OFFICE OF THE DISTRICT ATTORNEY

STATEWIDE DUI PROSECUTOR TRAINING AND EDUCATION PROJECT

The Statewide DUI Prosecutor Training and Education Project provides funds for personnel and a consultant. This project provides educational seminars and continued development of an Internet accessible brief bank. The goal of the project is to provide district attorneys statewide with access to the latest training, information, sample pleadings, motions and briefs to assist them in the prosecution of DUI offenders. (\$105,208)

TASK 6 - MANAGEMENT INFORMATION SYSTEMS/EVALUATIONS

This task provides for the expansion, redesign, and enhancement of DUI Management Information Systems to have faster response times. It also provides for comprehensive traffic safety evaluations of traffic crashes in California, along with a comprehensive analysis of certain DUI sanctions and their effectiveness.

AL0523 - CALIFORNIA DEPARTMENT OF MOTOR VEHICLES**TRAFFIC VIOLATOR SCHOOL RISK STUDY AND AUTOMATED TRACKING REPORT PROJECT**

The Traffic Violator School Risk Study and Automated Tracking Report project will evaluate the current traffic safety impact of the traffic violator school (TVS) citation dismissal policy and will estimate the volume of alcohol related traffic offenses that are inappropriately dismissed via the TVS option. It will also develop and produce an automated tracking report. (\$213,736)

157/164AL**AL0541 - HEMET POLICE DEPARTMENT****OPERATION R.I.D. - REDUCING IMPAIRED DRIVING PROGRAM**

The Operation R.I.D. - Reducing Impaired Driving program will address the traffic impact of the tremendous growth in population and traffic due to construction of housing subdivisions, businesses, and schools. Hemet Police Department will hire one full-time police officer and one full-time community services officer to address DUI through use of a contributed marked DUI vehicle and the funded officer, and the CSO for handling the booking and processing of DUI suspects, and investigating traffic collisions. The CSO will conduct high school outreach, and overtime will fund officers conducting warrant servicing and courthouse sting operations. Hemet PD participates in the Avoid the 30 DUI task force. (\$200,000)

AL0542 - HERMOSA BEACH POLICE DEPARTMENT**SOUTH BAY COMPREHENSIVE DUI ARREST, CITATION, AND COLLISION REPORTING, ANALYSIS AND TRACKING PROGRAM**

The South Bay Comprehensive DUI Arrest, Citation, and Collision Reporting, Analysis and Tracking Program will develop a ten agency comprehensive DUI arrest, citation, collision-reporting, and traffic management system. The project funds software development for the hand-held device systems, traffic management database capabilities, and 100 hand-held devices with accessories. The goals of this project are to decrease the time to issue citations and process DUI arrests. It will also have the capabilities to compare citation data within the participating agencies to investigate additional crimes. The hand-held systems will be used to reduce and in some cases eliminate redundancies and reporting writing errors while significantly decreasing the time and resources needed to write, edit, store and manage citation, collision and DUI records. The end result will be an increase in the productivity of Department's traffic enforcement personnel and an overall improvement in the Department's efficiency. In addition, the project will enable the secure and confidential exchange of electronic citation data between the police departments and the courts. (\$683,800)

157/410**AL0464 - TORRANCE POLICE DEPARTMENT****COMPREHENSIVE DUI ARREST, CITATION, AND COLLISION REPORTING, ANALYSIS AND TRACKING PROGRAM**

The Torrance Police Department will implement a Comprehensive DUI Arrest, Citation, and Collision Reporting, Analysis and Tracking program to improve the efficiency of completing citations, DUI arrest reports, and traffic collision reports, as well as producing management reports to monitor collisions and citations throughout the city. By automating these processes, we plan to achieve significant time saving and reduce the amount of time officers are away from enforcement activities. The goals of this program are to replace current automated citation devices with PDA-based hand-held computers; purchase and install a traffic management software program within the

Police Department for tracking collisions and citations; reduce the time involved in traffic collision data transfers between the Police Department and the Traffic Planners and Engineers within the City's Planning and Engineering Departments. (\$0)

164AL

ALCOHOL ASSESSMENT

This evaluation provides the Office of Traffic Safety the opportunity for an outside review of California's impaired driving program. The National Highway Traffic Safety Administration provides a nationally recognized team of experts to evaluate current status and provide recommendations for improvements/enhancements on programs related to impaired driving. (\$30,000)

AL0357 - CALIFORNIA DEPARTMENT OF MOTOR VEHICLES

EVALUATION OF THE EFFECTIVENESS OF CALIFORNIA'S IGNITION INTERLOCK PROGRAM

The Evaluation of the Effectiveness of California's Ignition Interlock Program project provides funds for personnel, travel, a laptop computer, and required software. Project activities include evaluating procedures, data records, and flow of information between the courts and DMV concerning ignition interlock laws. The project goal is to provide a comprehensive analysis to determine whether or not ignition interlock sanctions are more effective than other DUI sanctions in reducing recidivism and DUI collisions. (\$100,955)

AL0524 - DEPARTMENT OF MOTOR VEHICLES

AN EXAMINATION VEHICLE ACCESS AND FAILURE TO REINSTATE DRIVER LICENSES AMONG DRIVERS WITH SUSPENDED/REVOKED LICENSES FOR DUI PROJECT

The An Examination Vehicle Access and Failure to Reinstate Driver Licenses Among Drivers with Suspended/Revoked Licenses for DUI project will address a number of countermeasures to better control the driving risk posed by drivers suspended/revoked (S/R) for DUI and other reasons have been developed during the past two decades. One important factor influencing the success of these countermeasures is the degree to which S/R drivers have access to other vehicles (information on this is currently unavailable). This project will develop a sample of S/R drivers using DMVs driver record database, and link these drivers to vehicle registration records maintained by the department. In addition, a mail survey of these drivers will be developed and sent, and the results of the survey will be combined with that of the vehicle registration - driver license databases linkage to produce reliable information on the extent to which DUI and other S/R drivers drive their own vehicles. This project will also evaluate the extent that DUI offenders do not reinstate their driving privilege. This is a problem because non reinstating drivers remain outside the driver control system, and DMV and the courts are hindered in taking corrective action if their driving remains risky. This project will use rigorous methods to determine the extent of the problem, an use survey methodology to identify the barriers that DUI offenders face in reinstating their driving privilege. (\$112,934)

AL0473 - DEPARTMENT OF MOTOR VEHICLES**APPLICATION OF BEHAVIOR CHANGE THEORY TO THE DEVELOPMENT OF AN ENHANCED NEGLIGENT-OPERATOR TREATMENT AND EVALUATION SYSTEM**

The Application of Behavior Change Theory to the Development of an Enhanced Negligent-Operator Treatment and Evaluation System will involve the design of new negligent operator treatment intervention letters based on recent developments in knowledge regarding how people change negative behavior. It will provide a solid theoretical foundation for the effectiveness of departmental treatments, which would be assessed via an effectiveness evaluation. This project will fund personnel, travel, contractual services for subject matter experts in the Transtheoretical model of change and specialized statistical methodologies, and training and software. (\$53,240)

TASK 7 - TESTING EQUIPMENT

This task provides for testing and evaluation, and the purchase of various items of equipment to assist enforcement agencies in their efforts to apprehend DUI drivers, including Portable Evidential Breath Test devices, and passive and active preliminary alcohol screening devices.

164AL**AL0409 - CALIFORNIA DEPARTMENT OF JUSTICE****EVIDENTIAL PORTABLE ALCOHOL SYSTEM (EPAS) EXPANSION AND DIVERSIFICATION PROJECT**

The Evidential Portable Alcohol System (EPAS) Expansion and Diversification project provides funds to purchase portable evidentiary breath testing devices to be distributed to law enforcement agencies that contract with Department of Justice Laboratories. The project goal is to continue to meet the needs of local enforcement agencies conducting DUI operations by providing breath-testing technology that can be used for both screening and evidential testing and by providing web access to evidential test results. (\$545,000 for local benefit)

AL0566 - SACRAMENTO COUNTY**ALCOHOL TESTING EQUIPMENT UPGRADE PROJECT**

Through the Alcohol Testing Equipment Upgrade Project the Sacramento County Laboratory of Forensic Services will revitalize their breath alcohol-testing program by purchasing and installing new testing instruments at 12 police agency test sites by December 2005. Approximately 1,050 police officers will receive training in the use of the new instruments. The project goal is to increase the use and accuracy of the County's breath testing instruments. (\$131,040)

AL0598 - CALIFORNIA DEPARTMENT OF JUSTICE**ANALYTICAL EQUIPMENT PROJECT**

The goal of this project is to purchase two new gas chromatography/mass spectrometry systems (GC/MS) in order to provide toxicology service to law enforcement agencies who submit biological samples involving driving under the influence of alcohol and drug cases. In addition to purchasing the two new instruments, this project will provide operator training to two toxicologists and maintenance training to two instrument support specialists, and implementation of the two new instruments in the regular analysis protocols of the Toxicology Laboratory. (\$223,148)

TASK 8 - MULTIPLE DUI WARRANT SERVICE/SUPERVISORY PROBATION PROGRAMS

The grants in this task target habitual DUI offenders who are on DUI felony probation and/or have outstanding DUI felony warrants. Funds are available to communities to enforce the orders of the court through supervisory enforcement of DUI felony probationers, DUI warrant service teams, enforcing mandated treatment services, and enforcing the mandatory abstention from the use of alcohol. These programs seek to establish hotlines for local citizens to report probation violators. An important key to success is an intensive public information campaign in multiple languages. These grants provide a remedy to an ongoing problem; recidivist drunk drivers who continue to endanger themselves and others even after previous arrests and penalties for DUI.

164AL

AL0476 – DEPARTMENT OF MOTOR VEHICLES

DEVELOPMENT AND IMPLEMENTATION OF A NALTREXONE TREATMENT PILOT PROGRAM FOR DUI OFFENDERS PROJECT

The Development and Implementation of a Naltrexone Treatment Pilot Program for DUI Offenders project organizes and convenes an interagency task force consisting of representatives of the courts, probation departments, DMV, treatment providers and medical personnel to develop and implement a pilot program in several counties that combines the use of a promising new pharmaceutical treatment for alcohol-dependent persons - the drug naltrexone - with an enhanced psychosocial treatment program. This program will target repeat DUI offenders and other DUI offenders who show evidence of alcohol dependency, and it will contain an experimental research component that will evaluate the effectiveness of naltrexone as a DUI countermeasure (\$35,400)

AL0481 - CALIFORNIA HIGHWAY PATROL DUI WARRANT SERVICE PROJECT

The DUI Warrant Service Project provides funds for personnel overtime. Project activities include developing an operational plan, convening a task force, identifying the counties with the most outstanding DUI warrants, and selecting at least eight counties where a minimum of 192 DUI warrant service operations will be conducted. The project goal is to reduce the number of outstanding misdemeanor and felony DUI warrants in at least eight California counties. (\$130,250.92)

AL0536 - FRESNO POLICE DEPARTMENT

HELP ELIMINATE ALCOHOL RE-OFFENDER TEAM (HEART) PROGRAM

Currently there are over 200 DUI offenders in Fresno that have three or more convictions. The Fresno Police Department wants to target these offenders by the Help Eliminate Alcohol Re-offender Team (HEART) program. The project will partner with the District Attorney's office to address these offenders, as well as establishing a DUI reporting tip line and other DUI enforcement and educational programs that will enhance the efforts and establish a safer community. (\$252,299)

AL0554 – ORANGE COUNTY, SUPERIOR COURT OF CALIFORNIA DUI COURT

The DUI Court concept of the DUI court is to increase the level of accountability to high-risk offenders by requiring them to participate in treatment combined with education, judicial scrutiny, testing and formal supervision. It is expected that these offenders will learn to manage their alcohol addiction, become more productive citizens and present a far smaller risk for re-offending. Program goals also include reducing recidivism, reducing alcohol use/abuse and reducing alcohol related traffic collisions in the target jurisdiction. (\$445,638)

AL0561 - PLUMAS COUNTY**PLUMAS COUNTY DUI INTENSIVE SUPERVISION PROJECT**

The Plumas County DUI Intensive Supervision Project will establish a dedicated caseload of DUI offenders, supervised by a Probation Officer and Case Manager and will enhance mandatory DUI education programs. DUI probationers will have regular contact with the judge of the Superior Court, meetings with a review panel, home visits, and submission to alcohol and drug testing twice a week. (\$91,305)

AL0564 - RIVERSIDE COUNTY PROBATION DEPARTMENT**WATCH YOUR STEP... DUI PROBATIONER MONITORING USING GLOBAL POSITIONING SYSTEMS**

The Watch Your Step... DUI Probationer Monitoring Using Global Positioning Systems will hire two probation officers to monitor about 60 cases at a time for a total of about 250 over two years, Global Positioning System chips (GPS) in devices worn by probationers interfaced with Geographical Information Systems software (GIS), and Radio Frequency Identification (RFID) technology to monitor the physical whereabouts of chronic alcohol abusers who are on probation. The department will use the information to help determine if each case subject violates terms of probation, and if such technologies contribute to reducing recidivism. The city of Temecula will be the geographical focus of the study. The Probation Officers will conduct liaison with vendors in developing a locking bracelet containing the GPS and RFID chips, and vendors of transceivers for tentative placement in selected ABC licensees' premises. The Probation Officers will select a specialized offender group with each participant fitted with a bracelet. The officers will work with information technology specialists to incorporate GIS into the monitoring plan. The officers will conduct liaison with ABC in Riverside County to interface the GPS, RFID, and GIS with the ABC licensee database for use in monitoring whereabouts of probationers in relation to their terms of probation. The officers will monitor progress of the bracelets' transmissions of GPS coordinates and interface with the GIS, and further monitor the RFID information obtained through the ABC licensee's transceivers. The officer will conduct liaison with the Avoid the 30 DUI interdiction task force and Temecula PD to conduct the HOT SHEET program, and serve warrants on probation violators. (\$284,259)

410

AL0408 - BUTTE COUNTY PROBATION DEPARTMENT**HIDE (HIGH INTENSITY DUI ENFORCEMENT) PROGRAM**

The HIDE (High Intensity DUI Enforcement) Program provides funds for personnel, travel, contractual services, and educational materials. Project activities include strict enforcement of court orders, such as drug and alcohol testing, mandated abstention from drugs and alcohol, and mandated treatment services and an increase in the number of client contacts at home, in the field, and at the probation office. Special enforcement activities will include evening and weekend contact with probationers and occasional sweeps of frequented local bars and taverns. (\$101,290)

AL0435 - LOS ANGELES POLICE DEPARTMENT**TWO RESOURCES OPERATING AGAINST DRIVING-UNDER-THE-INFLUENCE SUPPLEMENT (ROADS) PROJECT**

The Two Resources Operating Against Driving-Under-the-Influence Supplement (ROADS) project provides training, collision investigation equipment, computer equipment and administrative costs. The Los Angeles Police Department (LAPD) will conduct a comprehensive traffic safety program by establishing a DUI Warrant Team to apprehend DUI offenders with outstanding warrants prior to them having an opportunity of committing future DUI offenses. The Multi-Offender Apprehension Team will seek out multiple DUI conviction offenders who have suspended driver's licenses to ascertain if they are operating a motor vehicle. (\$20,300)

TASK 9 - MULTI-AGENCY HOLIDAY ENFORCEMENT CAMPAIGNS

Programs in this task provide increased DUI enforcement and media campaigns during traditional holiday periods; Christmas through New Years, July 4th and Labor Day weekends. In addition, problem holidays may differ from city to city. This program provides local agencies the freedom to select high problem holidays and implement increased enforcement and public information. Enforcement efforts are conducted through combined agency efforts to cover all enforcement jurisdictions. These programs provide a highly visible and united message to the community to "Avoid" DUI during these periods. The table below details the programs under this task for fiscal year 2004.

Task 9				FFY 2005 Program Components			
Project No.	Fund	Agency	FFY 2005 Equipment Purchases	Enforcement Activity	Educational Presentations	Public Information	FFY 2005 Federal Share

TASK 10 - DUI ENFORCEMENT CAMPAIGN

164AL

The Office of Traffic Safety will fund approximately 5 million dollars to local and statewide projects for overtime cost to conduct sobriety checkpoints during a fifteen-month period. That time period encompasses three “*You Drink & Drive. You Lose*” mobilization periods:

- ◆ The Holiday period in December 2004/January 2005
- ◆ The Labor Day period in August 2005/September 2005
- ◆ The Holiday period in December 2005/ January 2006

The California’s Sobriety Checkpoint Campaign (CSCC) “*You Drink & Drive. You Lose*” goal is designed to reduce the number of people killed in alcohol-involved crashes in 2005 through the combined effort of the local law enforcement and the Office of Traffic Safety (OTS). The CSCC strategy has proven that California’s Sobriety Checkpoints are an effective way to maximize the deterrent effect and increase the perception of apprehension of motorists who would operate a vehicle while impaired by alcohol. Studies conducted in California and other states point to the fact that cities conducting sobriety checkpoints report substantial reduction in alcohol-involved crashes. Additionally, organizations such as Mothers Against Drunk Driving, the National Highway Traffic Safety Administration and the National Transportation Safety Board call sobriety checkpoints one of the most important DUI countermeasures available to law enforcement agencies.

A solicitation has been sent to local agencies across the state to apply for the CSCC program. In addition, the CHP will support the CSCC through statewide enforcement and public information. (\$5,000,000)

TASK 11 – IMPAIRED DRIVING PROGRAMS

163ID

AL0489 – CALIFORNIA HIGHWAY PATROL

DUI ROVING ENFORCEMENT PROGRAM

The DUI Roving Enforcement Program project will focus on reducing fatal and injury traffic collisions attributed to driving under the influence (DUI) within CHP jurisdiction. This project provides for increased DUI enforcement with saturation patrols targeting 65 % of the statewide population. (\$400,000)

TASK 12 – SCREENING, BRIEF INTERVENTION AND TRAINING

Impaired driving is often a symptom of a larger problem of alcohol misuse. There is compelling evidence in scientific and medical literature that screening and brief interventions are effective in changing drinking and impaired driving patterns among problem drinkers. OTS will work with physicians and other health care providers to increase routine screening of patients for alcohol abuse problems, and facilitate brief counseling and referral of patients for treatment of alcohol dependency, as appropriate.

164AL

AL0584 - UNIVERSITY OF CALIFORNIA DAVIS MEDICAL CENTER

SACRAMENTO COUNTY ALCOHOL SCREENING AND INTERVENTIONS AT TRAUMA CENTERS PROGRAM

As the only Level One Trauma Center in inland Northern California, University of California Davis Medical Center will address and expand screening and interventions with admitted trauma patients with a positive blood alcohol level. This Sacramento County Alcohol Screening and Interventions at Trauma Centers Program will furnish admitted trauma patients an intervention and referral to treatment in the Sacramento County and track patients through the Trauma Program Nurse Practitioners. The project will expand in cooperation and collaboration to the Level Two Trauma Center, Mercy San Juan Hospital, which will complete county-wide demographics of outcome of intervention, tracking rate of arrests and second trauma admissions in the county. This program will collaborate with the UC Irvine Project, (\$134,908)

AL0597 - UNIVERSITY OF CALIFORNIA, IRVINE

EMERGENCY DEPARTMENT ALCOHOL SCREENING AND BRIEF INTERVENTION PROGRAM

Patients with alcohol use problems (AUPs) are more likely to drive after drinking. Emergency Department (ED) staffs have a unique opportunity to identify these patients and intervene during the "teachable moment" of an ED visit. NHTSA has identified Screening and Brief Intervention as one of its key initiatives to address impaired driving. In response to this initiative, UCI will develop the "Emergency Department Alcohol Screening and Brief Intervention" program. This two-year project will provide screening, a brief intervention and referral for English and Spanish speaking adult patients in Orange County's only Level I Trauma Center and Emergency Department, with 47,000 annual visits. First we will assess and identify alcohol treatment and counseling resources and partner with other alcohol prevention programs in the County. Using a standardized validated tool, we will incorporate screening and referral as the standard of care for all patients using a computerized system. We will provide training for physicians, nurses, paramedics and social workers and in-depth training for para-professionals in Motivational Interviewing Brief Intervention. Over nine months we will screen over 15,000 patients and provide brief intervention to at least 600. An evaluation will involve follow-up telephone interviews with the brief intervention patients at one month and six months after the ED visit and confirmation of patient's attendance at the referral program. In addition, the patient's DUI history will be obtained through DMV records. The goal of this project is to develop a model program based on national guidelines and materials that can be replicated in EDs serving multicultural communities. (\$300,000)

**FISCAL YEAR 2005 PROGRAM FUNDING
(ALCOHOL AND OTHER DRUGS)**

Task	Title		Major Cost Items					
1	Program Development and Administrative Coordination		Personnel, Travel, Contracts, Printing					
2	DUI Enforcement/Education/Public Information		Personnel, Travel, Contractual Services, DUI Trailers, PAS & EPAS Devices, Police Vehicles
